PHARMACEUTICALS • NUTRACEUTICALS • COSMETICS

about us

Your trusted partner in

healthcare • wellness • personal care

Ukani pharma, a prominent company in the pharmaceutical sector with a focus on premium formulations, was founded in 2016. In addition to nutraceuticals, ayurvedic, and herbal goods, we also export and offer a broad variety of products, such as tablets, capsules, syrups, injections, ointments, and skincare solutions. Our cutting-edge infrastructure, which enables effective manufacturing and quality assurance, enables us to provide top-notch pharmaceutical solutions that improve health and well-being. We are based in ahmedabad, gujarat, india.

why choose us?

High-Quality Standards:

All products comply with global regulatory requirements.

Global Reach :

We export to multiple countries with a well-established distribution network.

Innovative Solutions:

Focused on research-driven and customer-centric product development.

Ethical & Transparent Business Practices:

Ensuring trust and long-term partnerships.

our excellence in

Pharmaceuticals

We offer a comprehensive selection of specialty and generic medications designed to address a variety of acute and chronic health conditions.

Nutraceuticals

We provide an extensive range of innovative, scientifically validated ingredients and extracts aimed at enhancing health and well-being.

Cosmetics

We deliver a diverse array of skincare solutions backed by cutting-edge research and a customer-centric approach to ensure optimal skin care.

Services we offer

manufacturing facilities

Our manufacturing facilities are committed to implement Good manufacturing practices (GMP) and Good laboratory practices (GLP). Thereby, the products are manufactured with high quality standards which are maintained at each and every stage of the manufacturing process. The facilities are equipped with advanced automation systems and automatic data recording monitors for process control like air distribution, temperature, humidity, auto cleaning process etc.
